Dear Sir,

This is to inform you that ICAR-Indian Institute of Wheat and Barley Research Karnal has received a request from Gharda Chemicals Limited, Maharashtra to conduct a research trial for testing of Fipronil 0.6 % GR- against Stem borer & Armyworm in Wheat for 2 seasons (Rabi 2020 and Rabi 2021). As the product is required to be tested at four locations, we would like to choose Ayodhya as one of the locations and want to include **Dr. Sameer Kumar Singh, Assistant Professor (Entomology)** in the project as Co-PI. Preliminary discussion about the project details has already been done with Dr. Sameer Kumar Singh and Dr. S.P. Singh (Assistant Professor, Plant Pathology-Wheat) telephonically.

As per ICAR guidelines, the product testing fee is Rs 20,000/treatment/insect species/season. There are eight treatments proposed, therefore based on calculations, the you will receive Rs. 6,40,000 (Rs. Six lakhs and forty thousand only) as contingency grant. The details of project cost calculations is given below:-

- Treatments=8
- Insect-pest spp.=2
- Cost per treatment per season= Rs. 20,000/
- Total cost per season=8x2x20,000/= Rs.3,20,000/
- Seasons=2
- Total cost for two seasons= Rs. 3,20,000/X2= Rs.6,40,000/ (Rs. Six lakhs and forty thousand only)

As a coordinator of the project, ICAR-IIWBR will receive the funds from the company and then it will be distributed among institutions of co-investigators of the project.

In this regard, please give permission to include Dr. Sameer Kumar Singh as Co-Pi in the project and also for the conduction of the trial. Protocol for testing the product is attached.

An early response from your side will be helpful.

Thanks and regards,
