Services

NKN is steadily evolving as the National Education Research Network (NREN) of India. The project has already made significant progress by connecting over 1500+ institutes in the network. NKN is now being looked as the harbinger of change in our knowledge society but this also brings together the responsibility to continuously look forward to provide the much required impetus to R&D initiatives related to networking technology.

NKN understands the requirement of R&D initiatives without a profit motive and therefore took a step forward in facilitation of this cause. The team comprising of zealous engineers and networking experts have worked over past few years to develop the first set of NKN products and services.

NKN network is designed with the aim of providing:

- ▶ Highest level of availability Robust & reliable connectivity
- ▶ Highest level of Scalability (specifically planned to match the unknown future demands which cannot be envisaged currently)
- ▶ Best Bandwidth Capacity: For NKN, various National Long Distance Carriers (NLDs) have provided 2.5Gbps / 10Gbps capacity links which can be self healed. Further, the NKN is in process of upgrading to 100Gbps or more connectivity.

Connected Institutions

"We cannot live only for ourselves. A thousand fibers connect us with our fellow men; and among those fibers, as sympathetic threads, our actions run as causes, and they come back to us as effects."

Vice Chancellor,
[As per list]

Subject: Connectivity to State Agricultural Universities (SAUs) under National Knowledge
Network (NKN) [sic]

Kindly refer to this office letter of even no. dated 13.4.2011 on the subject cited
above. In this connection, the matter regarding connectivity was sorted out between
NMEICT and NKN end links to SAUs with DG (NIC) and it has been approved that SAUs
will be connected under NKN not under NMEICT. The SAUs need not pay any amount for
the connectivity.

This is for your information.

Matter on priority
HOD, Stat./Comptroller
