The Narendra Deva University of Agriculture & Technology Alumni Association welcomes researchers, teachers, students, agri-entrepreneurs, administrators, policy makers and other alumni of the university engaged in the development of agriculture at Provincial, National and International levels to the **2nd Alumni Meet and National Seminar on "Frontier Agriculture-2013"** at Narendra Deva University of Agriculture and Technology, Kumarganj Faizabad, U.P. on 20-21<sup>st</sup> April 2013.

Everyone realized that the need to improve crop productivity is now turning into a dire necessity in order to meet the requirements of our burgeoning population. Human are rapidly overcrowding the earth and their polluting activities are kicking the natural ecosystem out of their perpetual homeostasis. In this context, how one would react the verdict that agriculture may be the largest threat to biodiversity and ecosystem function of any single human activities. The scientist today, therefore are faced with the formidable challenge of evolving holistic strategies not only to raise productivity in significant manner but also make it affordable, sustainable and eco-friendly.

In fact, an agricultural development has increasingly become technology propelled. The scheme and programmes implemented through annual and five year plan have yielded less than the desired results for sustainable agriculture necessitating development of new strategies approves with focused attention on key issue such as adoption of frontier cost effective agricultural technologies.

Themes:

- Adoption of frontier cost effective agricultural technologies for crop husbandry & cropping improvement
- Global climate change scenario and food security
- Plant/animal genetic resources, their conservation and sustainable utilization.
- Technology breaks through in horticultural and vegetable crop to improve productivity
- Increasing production and productivity through adoption Agri-tech agricultural practices
- Soil health care and increasing productivity per unit area
- Advances in biotechnology for crop improvement including sustainable crop protection.
- Integrated farming system approaches with extensive use of information's
- Economic development and transfer of technology at village level.

**Call for abstract:** Abstracts of research papers related to the seminar topic are invited for oral/poster presentation. Abstracts on MS Word (front times New Roman, size 12, single line spacing) having 250-300 words excluding title, authors and affiliations may be sent only through email (as attached file) to the organizing Secretary, Alumni Meet and National Seminar on "Frontier Agriculture-2013" (Email: [nduat\\_alumni@gmail.com](mailto:nduat_alumni@gmail.com)) along with duly filled registration form latest by 30<sup>th</sup> March, 2013.
